

# wunan Choosing a future.

## Wunan Corporate FACT SHEET.

### Wunan

Wunan is an Aboriginal development organisation in the East Kimberley, with a clear purpose and strategy to drive long-term socio-economic change for Aboriginal people. Our vision is to shift the current dependence on welfare from 80% to 20% over the next 20 years. Our strategy for change is underpinned by the principles of independence and responsibility, choice and opportunity, rewarding effort and supporting success.

We believe that by providing real opportunities, investing in people's abilities, and by encouraging and rewarding aspiration and self-responsibility that Aboriginal people will be empowered to make the changes necessary to build a better life for themselves and their families. Wunan in affect, is providing the ladder and partnering with Government and other Aboriginal organisations and NGO'S to create opportunities for people to climb. With a central focus on employment, education and housing, Wunan has built a range of programs and services that support people on their journey to a chosen destination.

Wunan has built a solid reputation as delivering innovative and sustainable projects and partnerships, and has long standing recognition as a constructive contributor to policy formation at Government and regional levels.

Wunan has been established for 10 years, during which time it has methodically built its capacity to make a difference in the East Kimberley. With a strong asset base that includes a number of commercial investments, Wunan is able to invest in innovation and carry a long-term, independent strategy for change. We are committed to building partnerships with the community, business sector, and Government to make the East Kimberley a place where Aboriginal people can look forward to building a stronger and more independent future for themselves.
